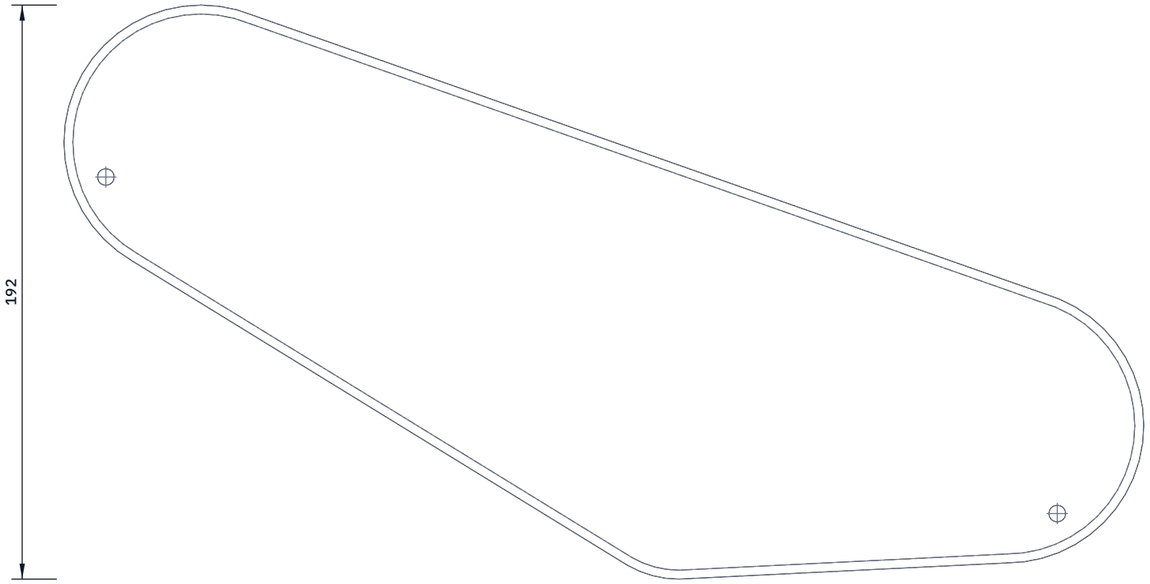
REV	DESCRIPTION	DATE	BY
P1	Making sketch for the prototype build plan	2026-10-01	AC
P2	Kit 1.9 detailed model; SDL-DEC-001 F1 to F8	2026-10-24	AC

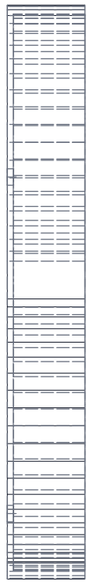
TOP VIEW

Scale 1:2; looking down (along -Z)



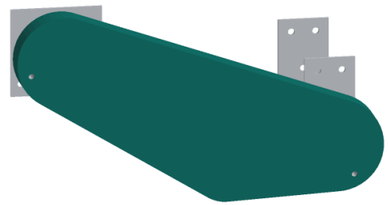
FRONT VIEW

Scale 1:2; looking at the front (along +Y)



RIGHT VIEW

Scale 1:2; looking at the right side (along -X)



WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

A shroud: a 3 mm band 26 mm deep round the outline in the front view, closed on the outside by a 2 mm face; open on the frame side.
The outline clears both sprockets by 17 mm and the tensioner over its full 45 mm of travel. 362 mm long, 192 mm tall.
Two 4.5 mm holes in the face: 17 mm ahead of and 29 mm below the drive axle; 32 mm behind and 12 mm below the plate shaft.
Print face down, no supports; split in two at mid-length and glue if your printer bed is under 370 mm.
Spacers: 8 mm tube, 38.5 mm (drive end) and 39.5 mm (plate end).
Fit: two M5 x 45 screws through the face and spacers into the tapped holes in the drop plate and bearing plate.
Check: turn the wheel: nothing touches the guard.
